

For immediate release:

Moseley Demonstrates Digital STL at Latin American Broadcast Show

SANTA BARBARA, CALIFORNIA - July, 2008 - Moseley Associates, Inc. will meet with Latin American Broadcasters at LABS '08 in Miami, FL on August 4th & 5th.

Moseley's Bill Gould talks STL applications with customers at LABS '07

This year's theme is *Experience the Evolution* where this elite group of broadcasters will gather to redefine Latin America's Radio, TV and Video industry.

Moseley will demonstrate its lineup of digital studio transmitter links ready now to transport all the signals necessary for HD Radio™ and multicasting.

Bill Gould, Moseley Sales Engineer said, "Making the right STL choice today will insure that stations are ready now and in the future for HD, HD2, HD3, and beyond."

Broadcasters from the Radio and TV-Video industry are invited to join us in the third installment of LABS, which will be a rendezvous point for the most prestigious broadcasters and technology providers of Latin America and the world.
